

# FLOWER POWER

NIKI DAVIES

A miracle is happening in front of our eyes,  
Come and see the field, you'll get a surprise.  
There are buttercups and daisies, poppies and cover,  
Colours bursting out like a big supernova.

Flower Power down in the field, feel it,  
Nature's got a new deal, feel that flower power.

A miracle is happening in front of our eyes,  
Come and see the field, you'll get a surprise.  
There are butterflies and beetles, grasshoppers hopping,  
Feeding on the nectar, chirping and chomping.

Flower Power down in the field, feel it,  
Nature's got a new deal, feel that flower power.

A miracle is happening in front of our eyes,  
Come and see the field, you'll get a surprise.  
Animals and birds with food for the taking,  
Every minibeast is a meal for the making.

Flower Power down in the field, feel it,  
Nature's got a new deal, feel that flower power.
