

## **Step By Step**

If we put our best foot forward  
And our aim is strong and true  
Then we'll learn that there is nothing we can't do.

If we reach for the stars,  
The universe is ours.  
If we aim for the sky  
That's where we'll learn to fly.  
Step by step we're climbing mountains,  
Standing up and being counted now.

If we always keep our heads up  
And we're proud of who we are,  
If we always try our hardest we'll go far.

If we reach for the stars,  
The universe is ours.  
If we reach for the sky  
That's where we'll learn to fly.  
Step by step we're climbing mountains,  
Standing up and being counted,  
Celebrating all around us now.
